

The Leader in Transportation and Supply Chain Security

Keying Options

WAR-LOK offers the most versatile keying options for locks than any other lock company. Our locks can be keyed differently, keyed alike, keyed differently to a master, some keyed differently and some keyed alike all to one master - the combination is for your choosing! Review the options below to see what best suits your security requirements. We can also custom key your fleet!

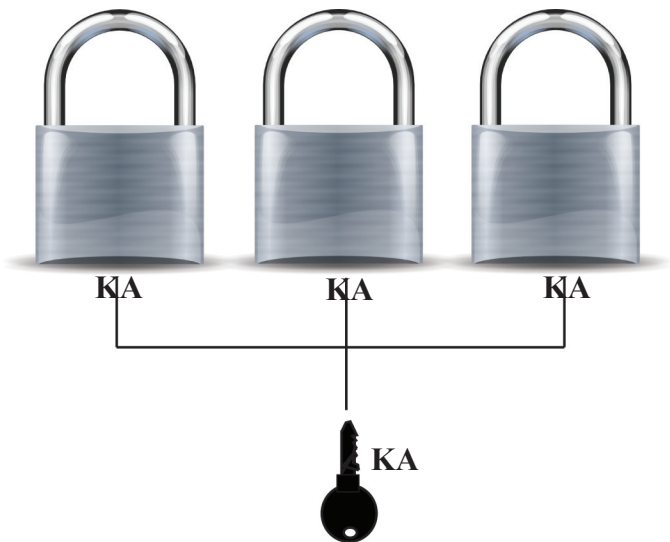

Keyed Differently

Each lock will only operate with its individual key.

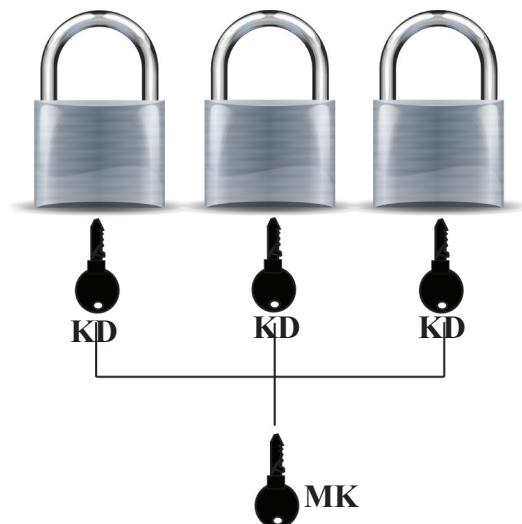

Keyed Alike

All locks will open with any of the same key.

Keyed Differently to Master Key

Each lock will operate with its individual key. In addition, the one master key can also open any of the locks.

Keyed Differently and Alike to Master Key

Each lock will operate with its individual key. Those keyed alike will open with any of the same key. In addition, the one master key can also open any of the locks.
